Subject: TI Construction Completion Date

Melinda,

The last Remedial Action completion date for Naval Station Treasure Island is for Site 12.

The way it is scheduled in the NSTI SMP, there is a RA fieldwork (physical construction) completion date, and a final Remedial Action Completion Report (RACR) date.

Completion of Remedial Action Fieldwork - 3/24/2018

Final Remedial Action Completion Report - 8/13/2018

(There is also a Site Completion Date which is calculated as 30 days after the final RACR report. That date is listed as 9/12/2018.)

These dates are from the October 2010 SMP.

Let me know if you need any further information.

Jim

Subject: RE: TI Construction Completion Date

Hi Jim,

I am looking for the date where any necessary physical construction is complete (for remediation), whether or not the final cleanup levels have been achieved. When all the necessary RDs have been constructed.

Thank you,
Melinda

Melinda,

Are you looking for the Navy's site closeout date for the last CERCLA site, or TIDA's (the City) date for the completion of the Treasure Island redevelopment? For a TIDA date, we would probably reference the latest TIDA presentation that is publicly available.

Jim

Hi Jim,

EPA has to report to out headquarters the construction completion date for TI and I wanted to confirm the date with you.

Thank you,
Melinda
